

Artwork Preparation // ..

In an ideal world we would love to receive the perfect artwork every time, but as this isn't a perfect world here are a few guidelines to help get as close as we possibly can.

PREFERRED FILE TYPES

eps / jpg / tiff / psd / pdf

- Best results are achieved from vector file from Adobe Illustrator, Freehand or CorelDRAW. Please convert text to paths.
- If supplying art work Photoshop please work at 300dpi at finished size or 600 dpi at half finished size.
- We can also work from Adobe InDesign & Quark Express (please include all images & fonts if supplying art work in this format).
- Remember the higher the quality of your artwork the higher the quality of the finished graphic.
